

Re-Visiting Health Informatics

HINF1100

Fall 2008

What is Health Informatics?

- Health Informatics is a scientific discipline that deals with all aspects of *understanding* and *promoting* the effective *organization, analysis, management* and *use* of health information to *improve* the *delivery* and *practice* of healthcare
- Health Informatics is the study of applying **information** and **technology** to improve health and healthcare
- **Health Informatics** = Health + Healthcare + People +
Information + Technology

Why Health Informatics

- Health Informatics is an **exciting new discipline** that aims to transform the healthcare system by incorporating information systems to support healthcare processes
- Health Informatics is **revolutionizing** healthcare by developing technology-based solutions to help both health professionals and patients

How Does Health Informatics Help?

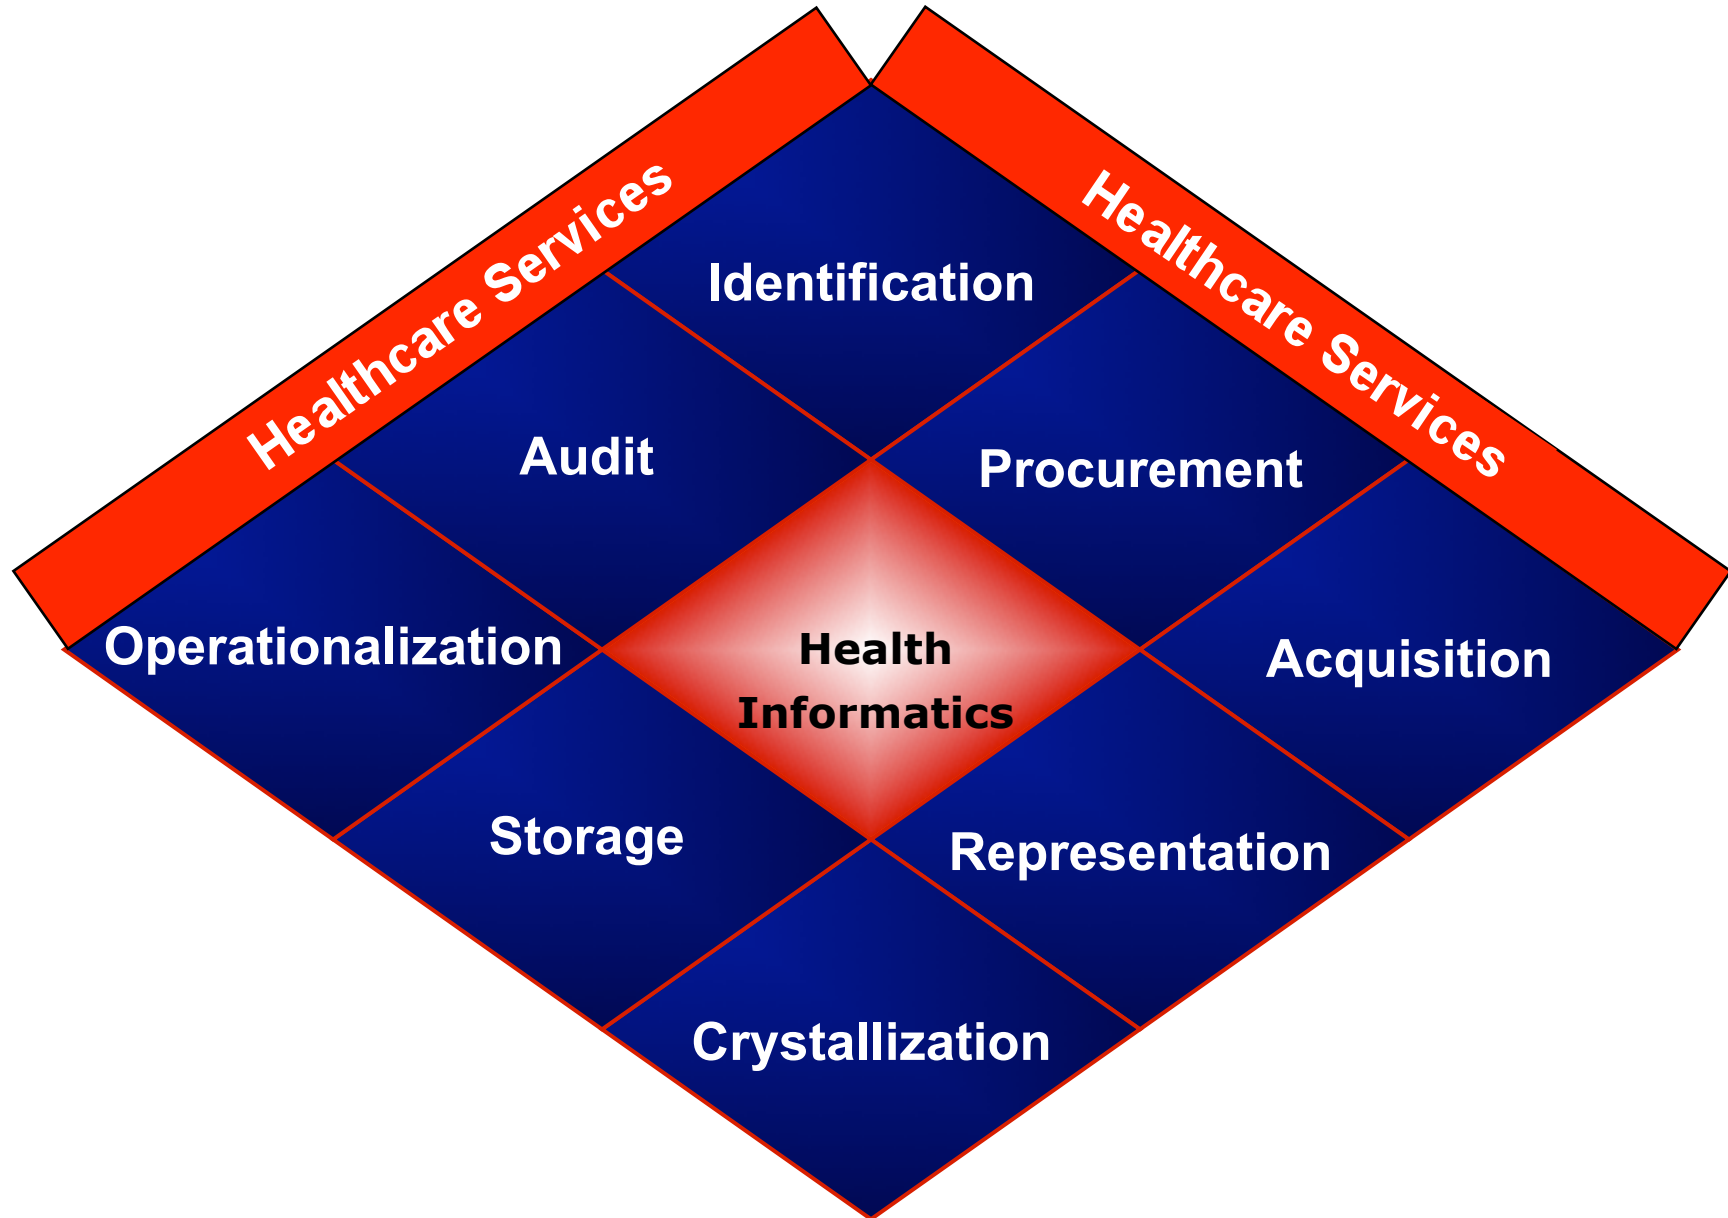

- ★ **Record** patient's health information in an electronic format
- ★ **Manage** flow of patient information between health professionals, departments and institutions
- ★ **Offer** patients easy & timely access to healthcare services
- ★ **Inform** health professionals about best evidence and practice guidelines
- ★ **Provide** decision support services to health professionals to reduce medical errors
- ★ **Optimize** healthcare resources to reduce cost and to improve efficiency
- ★ **Improve** patient safety and the quality of care
- ★ **Facilitate** remote healthcare at a patient's home

What do Health Informaticians Do?

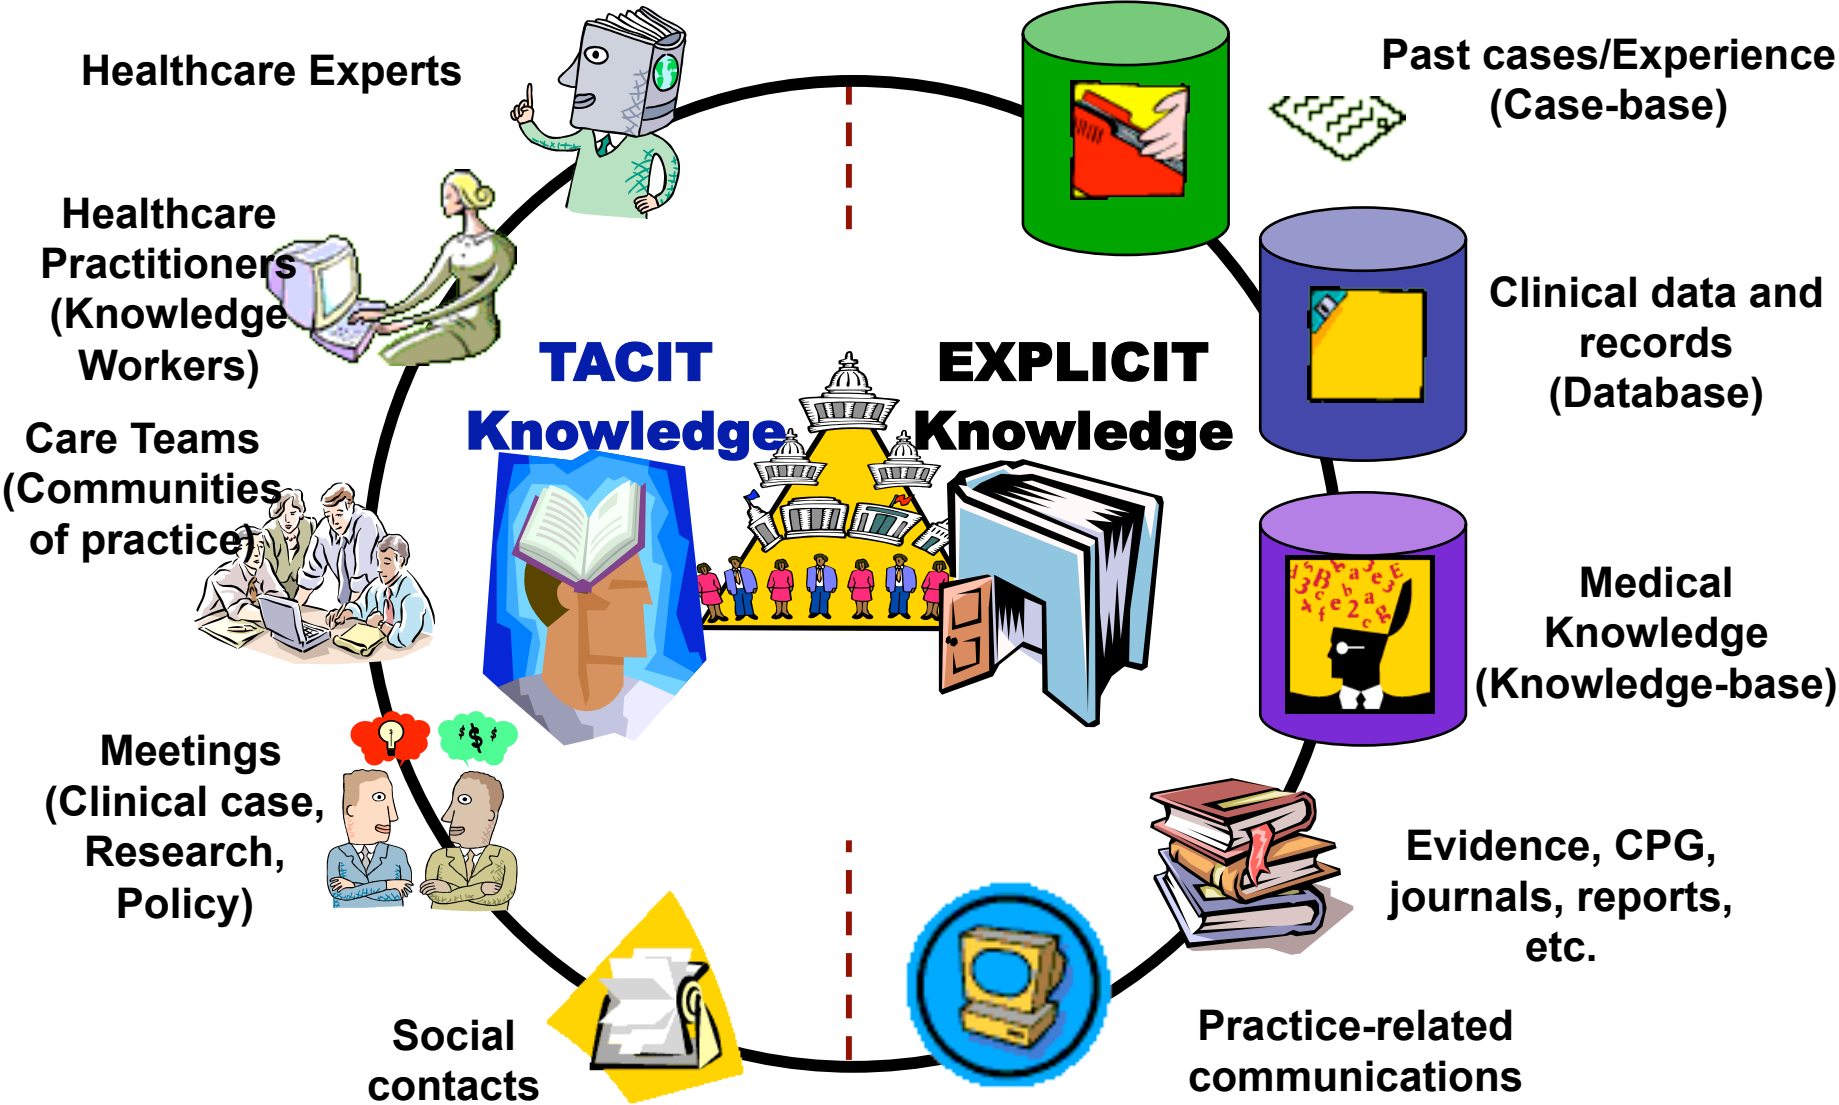

Health Informaticians *support, design, lead* and *manage* a variety of key healthcare components

Lead	Hospital Information Systems Management		Health Technology Innovations & Research		Manage
	Health Technology Deployment Teams		Health Policy Teams	Health Standards	
Design	Hospital Information Systems		Patient Support Services	E-Health Systems	
	Electronic Health Records	Decision Support Systems		Research Tools	
Support	Knowledge Management	Knowledge Access	Knowledge Translation		
	Information Flow		Information Standards		
	Data Collection	Data Storage	Data Sharing	Data Analysis	

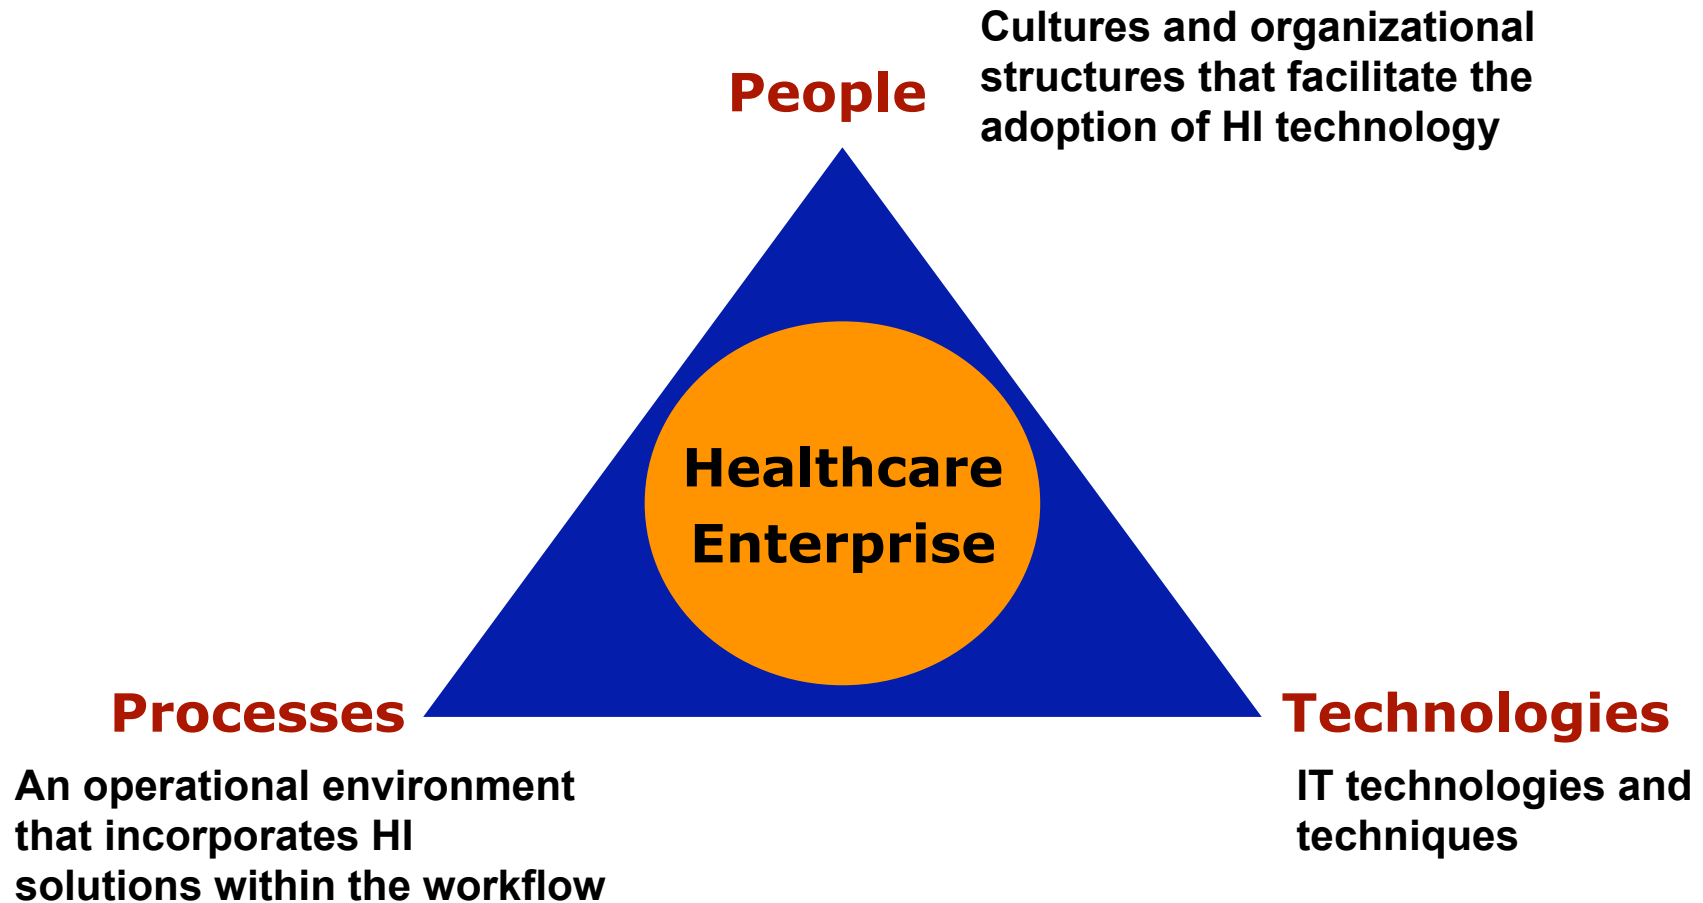

Health Informatics Activities

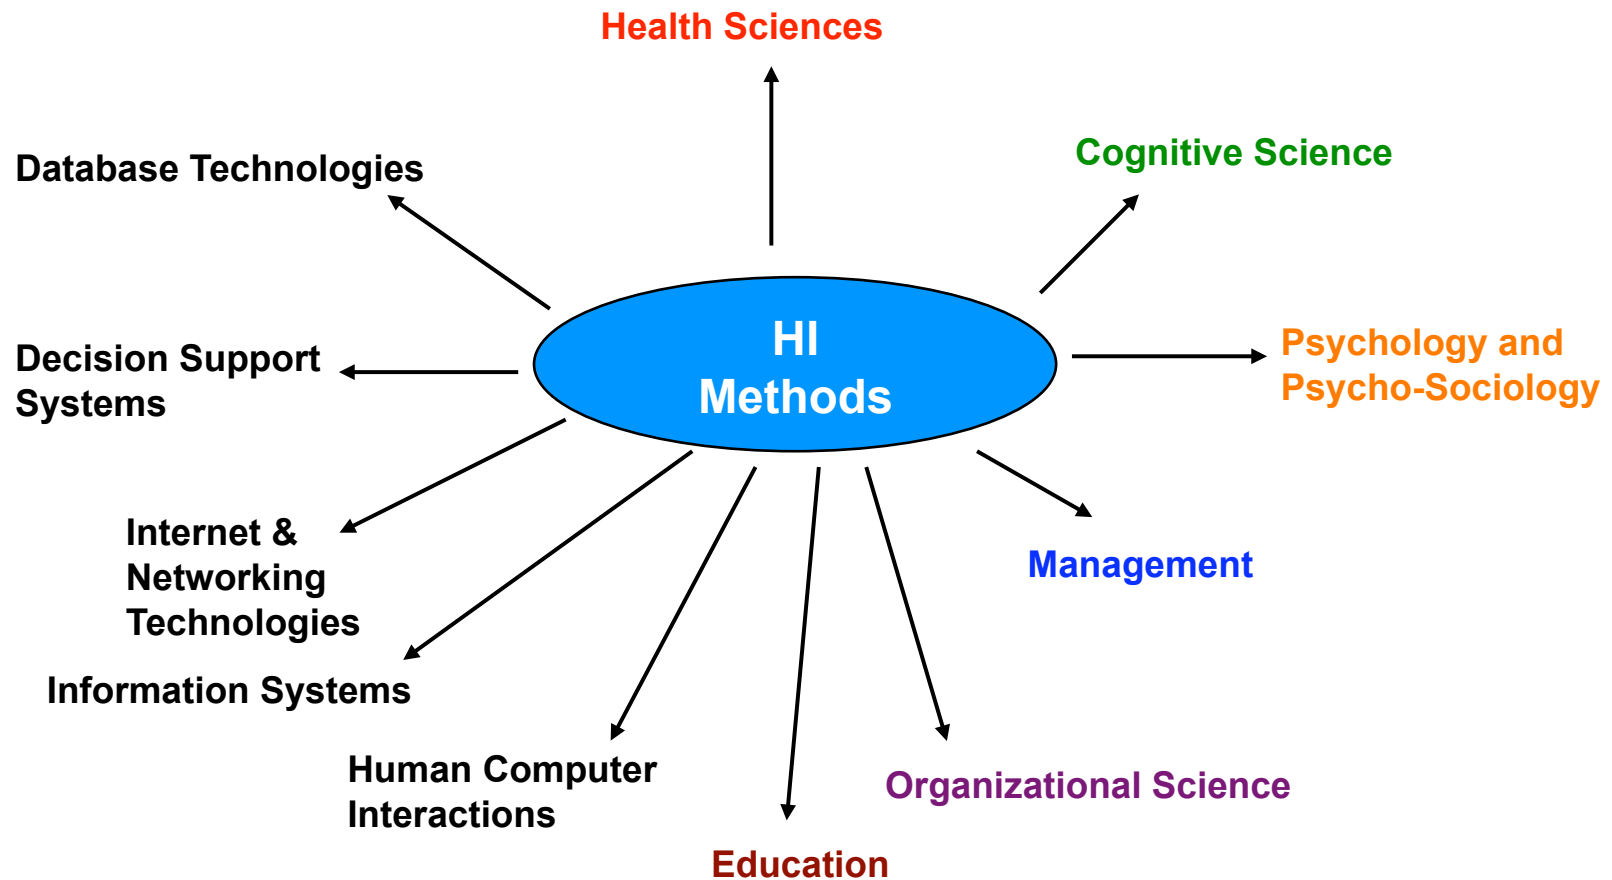

Health Informatics Knowledge

Health Informatics Environment

Health Informatics Solutions

State of Affairs: Possible Barriers to Health Informatics

- Potential of HI Technology
 - Culture
 - Infrastructure (Techniques and Technology)
 - Incentive
- Lack of Collaboration
 - Ad hoc means of communication
 - Paucity of resources (time, space, incentives, etc.)
 - Islands of operations
- Heterogeneity
 - Departments
 - Standards
 - Systems
 - No binding glue...

State of Affairs: Possible Barriers to Health Informatics

– Lack of Value Proposition

- Upfront cost
- Piecemeal initiatives

– ‘Unawareness’ to Health Informatics

- What can be done?
- Can it really be done?
- How will this help healthcare? How will it help me, my department?

Health Informatics Outlook

- Health Informatics is
 - Needed
 - Needed to be done
 - Needed to be done correctly
 - Needed to be done correctly in stages
 - Needed to be done correctly in stages whilst involving all healthcare stakeholders

HI Internships

- **NS Dept of Health**
 - **IWK**
 - **Ministry of Health Ontario**
 - **QEI Renal Clinic/Medical Informatics**
 - **NS Rehabilitation Centre**
 - **Poison Control, IWK**
 - **Cancer Care Nova Scotia**
 - **Cancer Care NS Surveillance & Epidemiology**
 - **Population Health Research Unit**
 - **Eye Care Centre, VG**
 - **Centre for Research in Family Health, IWK**

 - **CIHI, Standards Department**
 - **CIHI, Clinical Administrative Databases, Toronto**
 - **CDHA**
 - **Canada Health Infoway**
 - **South West District Health Authority**
 - **Federal Healthcare Partnership**
 - **Sunnybrook Hospital (Aging & Veterans Care Directorate)**
- **College of Pharmacy, Dal**
 - **Dept. of Radiology, Dal**
 - **DME, Dalhousie University**
 - **Urology, Dalhousie University**

 - **AGFA (University of Waterloo)**
 - **HeadQuarters Hair Solutions Clinic**
 - **Medusa Medical**
 - **Neusoft Co., LTD**
 - **Barrington Consulting Group**
 - **Nuvus Consulting Group**
 - **SLIC Hair Removal Clinic**
 - **Dr. Lief Surgurdson Inc.**

The End
