

## Permission to Use Copies of a Student's Assignments

I hereby give permission for James Blustein to use a copy of my assignments from Computer Science course number 4163 (entitled Human-Computer Interaction) in the Summer 2002 term at Dalhousie University as an example for other students in future courses.

This permission does not change the ownership of any assignment.

I acknowledge that I grant this permission entirely of my own volition.

I have not and will not get any course credit or payment either by granting or not granting the permission.

James Blustein acknowledges that I may rescind my permission in writing at any time.
