Short Biography

Dr. Zahoor Ali Khan is currently working as a Division Chair of Computer Information Science (CIS) and Applied Media divisions at Higher Colleges of Technology, United Arab Emirates. He was an Adjunct Professor in the Department of Engineering Mathematics and Internetworking, Faculty of Engineering at Dalhousie University, Canada. He also served as a faculty member of Computing & Information Systems at Saint Mary's University, Canada. He is a Postdoctoral Fellow in the Internetworking Program (Faculty of Engineering) at Dalhousie University, Canada. He received his PhD and MCSc degrees from Faculty of Engineering and Faculty of Computer Science at Dalhousie University, respectively. He earned his MSc (Computer Engineering) degree from UET Texila, MSc (Electronics) degree from Quaid-i-Azam University and BSc from University of Peshawar. He also holds several professional certifications such as CCAI (Cisco Certified Academy Instructor), MCSE (Microsoft Certified System Engineer) and CUTL (Certificate in University Teaching and Learning) from Cisco, Microsoft and Dalhousie University, respectively.

Dr. Khan has 18+ years of research and development, academia and project management experience in IT and engineering fields. He has multidisciplinary research skills on emerging wireless technologies. His research interests include but are not limited to the areas of e-Health pervasive wireless applications, artificial intelligence, theoretical and practical applications of Wireless Sensor Networks, Smart Grids and Internet of Things. His research outcomes include several journal papers, book chapters, and numerous conference proceedings, all peer-reviewed.

He is (co)-author of a book, book chapters, 34+ Journal and 170+ Conference papers. The journal papers have appeared in prestigious and leading journals. Most of his conference papers have been published by IEEE Xplore, Springer or Elsevier and indexed by Scopus and Thomson Reuters' Conference Proceeding Citation Index. Several conference papers have won the best paper awards (BWCCA 2012, IEEE ITT 2017).

Dr. Khan is an editorial board member of several prestigious journals. He also serves as a regular reviewer/organizer of numerous reputed ISI indexed journals, IEEE conferences, and workshops. He is a senior member of IEEE (SMIEEE) and IAENG.
